

“The Church Doctor Experience”

Q: Is Church Doctor a ministry or a business?

A: When Church Doctor Ministries partners with your church, the relationship reflects the love and honor we have for the Body of Christ. It is an expression of our passion for the Great Commission. Our servant role to you demonstrates our conviction that every local church – and, your church – is the hope of the world.

The name, Church Doctor, describes our personal approach to the uniqueness and complexity of every church, as a living organism – just as a medical doctor approaches the human body with respect and integrity.

Q: We’ve tried many programs with almost no long-lasting results. How is this different?

A: Our commitment is not a quick-fix of programmatic symptoms, but a comprehensive thoroughness that treats the causative issues behind the issues. No ministry is as thorough and exhaustive toward multiplying hope through a healthy church. We at Church Doctor Ministries approach your church from the perspective of John 5:19, where Jesus provided His disciples with His approach to ministry. Essentially, this motivates us to avoid the “quick fix” and to approach your church sensitively: to see where God is blessing and build on that; to join God where He is moving. Our experience with the Christian movement on six continents for four decades provides a deep well of experience as “God watchers.” This experience intersects with the personality of your church.

Q: What is your ultimate goal? Why do you do this?

A: Our relationship with your congregation includes follow-up and follow-through, as we guide you to right action plans. Our support by phone and e-mail is available at no further cost because our objective, like yours and God’s, is results. This maximizes the stewardship of our partnership to increase the effectiveness of your church. We believe God’s Kingdom work deserves no less.

Our approach to your church is designed as a process. God uses this as a catalyst for encouragement. It energizes your church members in every area of congregational life. Measurable results in several categories of spiritual health and vitality are evident within months of helping your church.

The long-term friendships and on-going relationships we have developed are a gratifying and joyful blessing we receive by working with churches like yours. The growth of God’s Kingdom, through a more effective church – this is the extraordinary honor and blessing we share with those we serve.
