God Watchers

In the classic book *Experiencing God*, Henry Blackaby describes two different ways of planning: 1) think up an idea and pray like crazy for God to bless it; or 2) look for where God is already at work blessing and build with Him there. This is an essential, biblical principle for ministry that Jesus taught in John 5:19, “I’m telling you this straight. The Son can’t independently do a thing, only what he sees the Father doing. What the Father does, the Son does. The Father loves the Son and includes him in everything he is doing” (The Message).

This is how we do ministry at Church Doctor Ministries. We are “God watchers”, and for almost forty years we have made journeys all over the world to where God is blessing the church. For the last eleven years, Church Doctor Ministries has taken church leaders from North America to England so they can see, feel, and become infected by the Spirit with the DNA of mission and revival!

Immersion Excursion

It was predicted a few years back that the Church in England would soon die. Not due to lack of money or programs, but because of the massive loss of people.

England is a much more secularized culture than that of North America. Young people are often generations removed from the church and have no reference points to the Bible, church, or Jesus.

Yet, God is bringing revival to England through ministries like The Message Trust in Manchester and Holy Trinity Brompton in London, the birthplace of the famous *Alpha Course*.

Also, St. Thomas, an Anglican-Baptist church in the Crookes section of Sheffield, is reaching, discipling, and reproducing mission-minded and servant-hearted young leaders through leadership huddles, “white-hot worship,” and LifeShapes®, as well as “clusters.”

Visit London, Manchester, and Sheffield

During this immersion excursion you will be exposed to cutting-edge ministries that are pioneering new ways of spreading the Gospel and making disciples. We have sought out and researched these ministries and are excited to have their leaders share with you how they are engaging their communities!

St. Thomas' Crookes

God has given St. Thomas' a life to live, and their desire is to live that life better by living a God life. Jesus lived a balanced life in three dimensions:

UP—IN—OUT

UP— The time He spent with God His Father;

IN— The time He spent with His disciples, His community of faith, His friends;

OUT— The time He spent with those in need in the world, showing them in word and action the better life He came to bring.

By joining Kent and Tracee for the **Immersion Excursion Experience**, you will learn biblical and practical ways to:

- Do ministry in a postmodern culture.
- Reach “twenty-something’s.”
- Catch the New Testament culture of revival that you can bring back and infect others with in your church.

Christianity is a movement — a spiritual epidemic where faith becomes contagious and *being* precedes *doing*.
